Introduction

PeopleSoft's Student Advisement Report (STAR) will enable you to track the requirements and policies that you must satisfy to graduate from New York Institute of Technology. As you progress towards graduation, the Student Advisement Report analyzes all courses that have been taken (both successfully and unsuccessfully). The application then uses this information to determine the requirements that are still outstanding.

Accessing the Student Advisement Report

The Student Advisement Report is accessible via NYITConnect:

1. To access an STAR Report via NYITConnect, select “Academic Requirements” from the “other academic...” drop-down menu and click the arrow to generate the report:

The screenshot shows the Student Center interface. At the top is a yellow bar with 'STUDENT CENTER'. Below it is the 'Student Center' header. The main content area is divided into several sections. On the left, under 'Academics', there is a dropdown menu labeled 'other academic...' with 'Academic Requirements' selected and circled in red. Other options include 'Academic Planner', 'Apply for Admission', 'Class Schedule', 'Course History', 'Enrollment: Add', and 'Enrollment: Drop'. In the center, there is a 'Fall 2016 Schedule' table with two rows of class information. On the right, there are several panels: 'SEARCH FOR CLASSES', 'Holds' (Registration Hold), 'To Do List' (No To Do's), and 'Enrollment Dates' (Open Enrollment Dates).

NYIT Degree Audit (RG-3273)

The degree audit identifies:

1. Requirements for the curriculum for which you are being evaluated;
2. NYIT coursework (graded and in-progress); and,
3. Transfer and Prior Learning coursework (where applicable).

Important Notes:

1. Some credits may not be applicable to your program requirements. Please review your credit requirements with a faculty advisor each semester.
2. Please review this document carefully. Any discrepancies must be reported to the Office of the Registrar immediately.
3. Students who wish to be considered as candidates for graduation must file an online "Application for Graduation" at the beginning of their final semester. Please see the Academic Calendar for application deadlines.
4. Students are responsible for adhering to all college regulations and completing curriculum requirements.

10. After the introductory section of the report, the “Cumulative Units, Cumulative GPA and Residency Requirements” portion is displayed.
- In this example, you’ll see that the Cumulative Units requirement is marked as “Not Satisfied” since the student has not completed 18 credits. PLEASE NOTE: This area includes all completed credits including those that do not apply toward degree completion.
 - The GPA requirement is currently marked as “Satisfied” since the student has an overall GPA above a 3.0. This requirement can change to “Not Satisfied” if the student’s GPA falls below this mark.
 - The Residency Requirement is currently marked as “Not Satisfied” since the student has only completed 18 credits at NYIT. He or she still has to complete 12 more credits.

Substitutions

Your department may occasionally request that a change is made to your degree requirements. This is referred to as a course substitution. If a course substitution has been applied on an STAR report, you will see a Notes column added to the list of courses. Within the column, it will list the new course(s) and a number with a blue link. That number represents the order in which the substitution was applied. When clicking the blue link, it will display a description of the substitution.

▼ **Math (R-3986, L-10)**

✔ **Satisfied:** Take MATH-115.

• Units: 3.00 required, 3.00 taken, 0.00 needed

The following courses were used to satisfy this requirement:

Course	Description	Units	When	Grade	Notes	Status
MATH 141	Precalculus	3.00	Spring 2013	C-	01	✔

|  First  1 of 1  Last

In the example above, you can see that MATH- 141 was substituted in lieu of MATH- 115.

Split Courses

In addition to substitutions, departments previously would approve use of extra credits from a requirement so that another could be satisfied. For example, if a student took CHEM-107 (a 4-credit course) to satisfy a 3-credit Science Choice requirement, the department may have requested to use the additional credit to satisfy the Electives requirement. This process will now be automated on the STAR by a feature called Split Courses. On the report, CHEM-107 would be listed in BOTH the Science Choice and Electives area. The Science Choice area would list CHEM-107 with 3 credits displayed, while the Electives area would list CHEM-107 with 1 credit, as highlighted below:

▼ **Science Choice (R-3986, L-20)**

✔ **Satisfied:** Take 3 credits from subjects PHYS, BIOL, or CHEM.

• Units: 3.00 required, 3.00 taken, 0.00 needed

The following courses were used to satisfy this requirement:

Graduation

The "Graduation" section will be listed on the bottom of each report. When you apply for graduation, your department must send an STAR report to the Graduation Office with a graduation status marked and at least the Program Chairperson's signature included. In addition, all substitutions that still need to be applied must be listed in this section.

Graduation (Check One)

* Approved pending successful completion of all coursework: _____

2. _____	in lieu of _____
3. _____	in lieu of _____
Chairperson's Signature: _____	Date: _____

Only the department is able to submit an STAR report to the Graduation Office for an applicant. Students cannot hand this in themselves. However, it is YOUR responsibility to ensure that your department has forwarded.
